

# RUGGED COMBO

## STUDENT USER TIPS

Rugged Combo offers everything iPad® needs for a great student experience. Rugged Combo provides 6 ft. drop protection for iPad. The keyboard is protected to withstand a 2.5 ft. drop.

### DO

- Keep all parts and connectors clean and free of debris at all times.
- Make sure the keyboard is protected from falls as this can result in damage to the keys.
- Ensure there are no objects between iPad and the keyboard when closing the screen.
- Re-attach the keyboard to the case and close the Rugged Combo before placing into a bag. This will help to protect the keys and iPad screen.

### DO NOT

- Place the keyboard into your bag or binder by itself.
- Spill food, drinks, or any other liquids onto the keyboard.
- Pick the keys off the keyboard. They are difficult to replace and may result in the need to replace the entire keyboard.
- Remove any parts of the case, including the frame and cap. All parts of the Rugged Combo are meant to protect the iPad and will only be effective if all components are used.
